"Do you want to feel and look better - find out how you can by using Symmetry health products."

Calcium is the most abundant mineral in the human body, however, a 10-year study of over 35,000 Americans conducted by the U.S. Department of Agriculture found that nearly 70% of the U.S. population does not get enough calcium daily. Unfortunately, in many cases, dietary shortfalls aren't discovered until years later when they already manifest themselves as serious health problems.

Research has shown that calcium supplementation can help provide levels of calcium crucial to maintaining a healthy skeletal system, while also activating various enzyme systems responsible for muscle contraction, fat digestion and protein metabolism. Supplementation of calcium also calms women during their normal cycle and reduces tension. We are confident that Calcium Coverage is truly unmatched by any other calcium supplement, and is the convenient way to get that fundamental amount of calcium your body needs.
