## Great New Taste!

Now with CoQ10, Hawthorn Berry & Resveratrol

SUPPORTS CARDIOVASCULAR SYSTEM

IMPROVES IMMUNE FUNCTION

INCREASES ENERGY & STAMINA

BOOSTS ENDURANCE & STRENGTH

SUPPORTS NATURAL ERECTILE FUNCTION

NO ADDED SUGAR OR SWEETENERS

NO SOY. NO DAIRY. NO WHEAT. NO CORN. NO GLUTEN. NON GMO.

SYMMETRY'S PATENTED ABSORPTION TECHNOLOGY

1 OUT OF 4  
PEOPLE  
WILL DIE FROM  
HEART DISEASE!

EVERY YEAR  
715,000  
AMERICANS  
HAVE HEART ATTACKS  
15% DIE!

## HEART DISEASE IS THE #1 KILLER OF MEN AND WOMEN WORLDWIDE!

### CARDIO 5000 SUCCESS STORIES!

*"It was the most amazing thing that I've ever seen. I started taking Cardio 5000, and within days, I was water skiing like a kid again. That is a pretty cool deal when you are pushing 60. I know it is important to have a healthy heart, but to ski, play tennis, play volleyball, and workout like I did in my thirties...is even better!"—Jana W.*

*"I had a doctor appointment 2 months after I started taking Cardio 5000. I had no expectations, but the results were shocking! It was amazing! My Cholesterol had decreased by 47 points!"—Miranda M.*

*"Since my father started using Cardio 5000, his health has really improved. It has improved so much, that he probably will not need heart surgery. I would recommend it to anyone who wants to protect and support their heart and cardiovascular system. Thank you Symmetry!"—Eric T.*

## NITRIC OXIDE THE BODY'S "MIRACLE MOLECULE"!

#1 CAUSE  
OF DEATH  
IN THE WORLD IS  
HEART DISEASE!

### L-ARGININE

In 1998, three scientists received a Nobel Prize for their Discovery. They learned that an important Amino Acid found in the human body, L-Arginine, is the building block to the body's "miracle molecule" - Nitric Oxide.

Nitric Oxide slows down the body's aging process, supports heart health, defends against inflammation, and acts as a powerful antioxidant. Nitric Oxide acts as a signal molecule to the nervous system, regulating blood pressure, controlling blood flow to organs, fighting infection, and decreasing inflammation.

Studies suggest that taking L-Arginine improves athletic performance (body composition and strength). At very high intakes, L-Arginine has increased growth hormone levels, which stimulate muscle growth. Trials combining weight training with L-Arginine showed a decrease in body fat and increases in total strength and lean body mass.

### VITAMIN D

Research suggests that there is a strong link between low levels of Vitamin D and high blood pressure. Studies have also shown that Vitamin D promotes the reaction between L-Arginine and L-Citrulline increasing Nitric Oxide production.

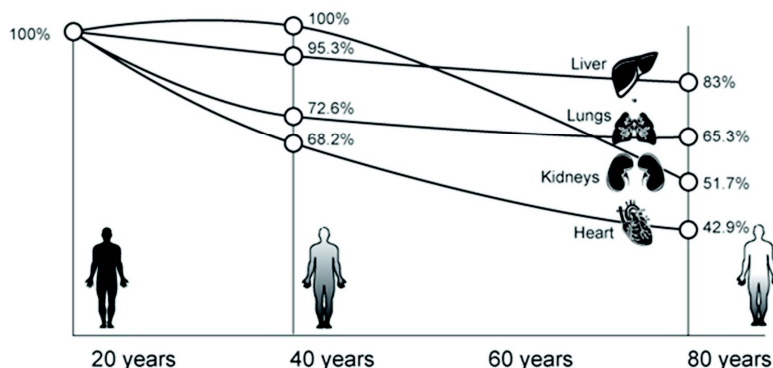

### HAWTHORN BERRY

- Supports cardiovascular health.
- Aids in lowering blood pressure
- Acts as an antioxidant
- Helps prevent blood clots
- Decreases inflammation

### CoQ10

Coenzyme Q10 (CoQ10) is an antioxidant that is found naturally in your body. It is particularly concentrated in the mitochondria—the energy-producing factories in each of your cells. In fact, the mitochondria provide 90 percent of the energy that fuels cellular activity and keeps us alive.

The concentration of coenzyme Q10 in the body decreases year by year, indicating that it has a close relationship with aging.

Studies show that as we get older, the CoQ10 level in our body decreases.

Cardio 5000 keeps your level in check, and you feeling young!

In addition to being a potent antioxidant, CoQ10 helps maintain healthy blood pressure and cholesterol levels, promotes arterial health and supports a strong heartbeat. It also has proven health benefits for your gums, brain and skin. And studies suggest that it may help prevent migraines and slow hearing loss.
