

Advanced Omega

DAILY HEALTH – BRAIN & HEART HEALTH

For optimal brain, nerve, heart and eye health.*

Advanced Omega gives your brain a boost with a maximum-strength trifecta of fatty acids (EPA & DHA + DPA), the building blocks of your brain.*

WHAT YOU SHOULD KNOW ABOUT OMEGA-3S*

Omega-3s are essential for healthy brain function and only found in certain foods we eat.

The best source of Omega-3s is regularly eating oily fish, according to the World Health Organization.

Up to 98% of us are deficient in Omega-3s.

Nothing Fishy About Advanced Omega*

- *Enhances Brain & Cognitive Health - 1,000mg of Omega-3s to support brain health at every age.*
- *Supports Heart Health - The American Heart Association recommends regular intake of Omega-3 fatty acids for healthy heart function.*
- *Helps Accelerate Fat Loss - Omega-3s, especially DPA, help support a normal, efficient metabolism.*
